OTHER BROADCAST INTERESTS OF APPLICANT AND FAMILY MEMBERS

Adam D. Gearheart has no other broadcast interests, whatsoever. He is, however, employed by Telcom as a cablecaster. If granted a construction permit for a new FM broadcast station, Mr. Gearheart will terminate his employment with Telcom and/or any other employment he may have at that time, prior to going on the air with the Harold FM station.

Mr. Gearheart's grandfather, Paul R. Gearheart, has other broadcast interests as follows. He is president, director and sole shareholder of Telcom, a cable system at Harold, Kentucky.

Exhibit 2

PROGRAM SERVICE STATEMENT

The station will broadcast a variety of different programs in different program categories. Public issues will be addressed in the form of discussions, forums, debates and regular news programs.

INTEGRATION STATEMENT

(1). Adam D. Gearheart will work full-time (a minimum of 40 hours per week) at the proposed station as general manager. In his capacity as general manager, he will supervise all aspects of the station's operations, including the overall supervision of the station's sales, programming, engineering and clerical departments, personal direction of the station's relations with the community and with advertisers, the hiring and firing of all personnel, and the establishment of salaries. Additionally, Mr. Gearheart will administer the station's EEO program.

(2). (a) DNA

(b) From 1973 to present, Adam D. Gearheart has resided at U.S. 23, Harold, Kentucky, within the proposed community of license, and he will continue to reside within the community of license if granted a construction permit for a new FM station at Harold. Mr. Gearheart claims enhancement for residence within the service area of the proposed station for 19 years.

(c) DNA

(d) Mr. Gearheart has been involved in broadcasting for three years and claims enhancement for broadcast experience as follows: From 1988 to June of 1991, Mr. Gearheart was employed full-time during the summer and part-time during the school year with Telcom. He worked installing and maintaining cable systems and as

cablecaster. In June of 1991, Mr. Gearheart began permanent full-time employment with Telcom as cablecaster for the system. If granted a construction permit for a new FM broadcast station at Harold, Kentucky, Mr. Gearheart will terminate his present employment with Telcom to fulfill his commitment to work full-time at the proposed station.

GUIDELINES TO THE MODEL EEO PROGRAM

The model EEO program adopted by the Commission for construction permit applicants, assignees and transferees contains five sections designed to assist the applicant in establishing an effective EEO program for its station. The specific elements which should be addressed are as follows:

I. GENERAL POLICY

The first section of the program should contain a statement by the applicant that it will afford equal employment opportunity in all personnel actions without regard to race, color, religion, national origin or sex, and that it has adopted an EEO program which is designed to fully utilize the skills of qualified minorities and women in the relevant available labor force.

II. RESPONSIBILITY FOR IMPLEMENTATION

This section calls for the name (if known) and title of the official who will be designated by the applicant to have responsibility for implementing the station's program.

III. POLICY DISSEMINATION

The purpose of this section is to disclose the manner in which the station's EEO policy will be communicated to employees and prospective employees. The applicant's program should indicate whether it: (a) intends to utilize an employment application form which contains a notice informing job applicants that discrimination is prohibited and that persons who believe that they have been discriminated against may notify appropriate governmental agencies; (b) will post a notice which informs job applicants and employees that the applicant is an equal opportunity employer and that they may notify appropriate governmental authorities if they believe that they have been discriminated against; and (c) will seek the cooperation of labor unions, if represented at the station, in the implementation of its EEO program and in the inclusion of nondiscrimination provisions in union contracts. The applicant should also set forth any other methods it proposes to utilize in conveying its EEO policy (e.g., orientation materials, on-air announcements, station newsletter) to employees and prospective employees.

IV. RECRUITMENT

The applicant should specify the recruitment sources and other techniques it proposes to use to attract qualified minority and female job applicants. Not all of the categories of recruitment sources need be utilized. The purpose of the listing is to assist the applicant in developing specialized referral sources to establish a pool of qualified minorities and women who can be contacted as job opportunities occur. Sources which subsequently prove to be nonproductive should not be relied on and new sources should be sought.

V. TRAINING

Training programs are not mandatory. Each applicant is expected to decide, depending upon its own individual situation, whether a training program is feasible and would assist in its effort to increase the available pool of qualified minority and female applicants. Additionally, the applicant may set forth any other assistance it proposes to give to students, schools or colleges which is designed to be of benefit to minorities and women interested in entering the broadcasting field. The beneficiary of such assistance should be listed, as well as the form of assistance, such as contributions to scholarships, participation in work study programs, and the like.

MODEL EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

I. GENERAL POLICY

It will be our policy to provide employment opportunity to all qualified individuals without regard to their race, color, religion, national origin or sex in all personnel actions including recruitment, evaluation, selection, promotion, compensation, training and termination.

It will also be our policy to promote the realization of equal employment opportunity through a positive, continuing program of specific practices designed to ensure the full realization of equal employment opportunity without regard to race, color, religion, national origin or sex.

To make this policy effective, and to ensure conformance with the Rules and Regulations of the Federal Communications Commission, we have adopted an Equal Employment Opportunity Program which includes the following elements:

II. RESPONSIBILITY FOR IMPLEMENTATION

(Name/Title) Adam D. Gearheart/Individual will be responsible for the administration and implementation of our Equal Employment Opportunity Program. It will also be the responsibility of all persons making employment decisions with respect to the recruitment, evaluation, selection, promotion, compensation, training and termination of employees to ensure that our policy and program is adhered to and that no person is discriminated against in employment because of race, color, religion, national origin or sex.

III. POLICY DISSEMINATION

To assure that all members of the staff are cognizant of our equal employment opportunity policy and their individual responsibilities in carrying out this policy, the following communication efforts will be made:

☒ X

The station's employment application form will contain a notice informing prospective employees that discrimination because of race, color, religion, national origin or sex is prohibited and that they may notify the appropriate local, State or Federal agency if they believe they have been the victims of discrimination.

☒ Y

Appropriate notices will be posted informing applicants and employees that the station is an Equal Opportunity Employer

V. TRAINING

Station resources and/or needs will be such that we will be unable or do not choose to institute programs for upgrading the skills of employees.

ENGINEERING EXHIBIT

**APPLICATION FOR CONSTRUCTION PERMIT
FOR A NEW FM BROADCAST STATION**

**ADAM D. GEARHEART
HAROLD, KENTUCKY**

DECEMBER 1991

ENGINEERING STATEMENT

This Engineering Statement and the attached figures have been prepared on behalf of Adam D. Gearheart by B. Benjamin Evans of Evans Associates, Consulting Communications Engineers in Thiensville, Wisconsin, in support of an application for a construction permit for a new Class A FM broadcast facility to operate on Channel 285 (104.9 MHz) at Harold, Kentucky. No facility is presently operating on this assignment.

PROPOSED FACILITIES

The instant application is made under Paragraph 73.213(c)(1) of the FCC Rules. Channel 285A was assigned to Harold by grant of a petition to amend the Table of FM Allotments (MM Docket 88-437) which was filed prior to October 2, 1989. The proposed antenna location meets all minimum distance separation requirements set forth in Section 73.213 of the Commission's Rules for 3 KW Class A FM stations.

It is proposed herein to install the transmitting antenna of the proposed FM station on an existing 200-foot tower. The new facility will operate with 0.37 KW effective radiated power and 281 meters antenna height above average terrain, which is the equivalent of 3 KW ERP at 100 meters HAAT.

The proposed facility will serve an area of 1,827 square kilometers and a population of 74,915 persons with a predicted 1 mv/m signal or better. The area within the proposed 1 mv/m contour was determined using numerical integration. The population within the 1 mv/m contour was determined from the 1980 U.S. Census, updated to 1986.

BLANKETING

The proposed blanket contour, calculated in accordance with Paragraph 73.318(a) of the Commission's Rules, extends 0.24 kilometer from the transmitter site. The applicant will resolve all known complaints of blanketing interference within this contour in accordance with Section 73.318.

COVERAGE REQUIREMENTS

The herein-proposed facility will cover all of the community of Harold with a predicted 3.16 mv/m signal or better.

Engineering Statement - Page 2
New FM Station, Harold, KY

INTERFERENCE CONSIDERATIONS

The proposed FM antenna will share the existing antenna-supporting structure with a cellular telephone facility (call letters: WMI-999). There are no other stations, broadcast or non-broadcast, within 60 meters of the proposed site, nor established commercial or
